CYCLAMEN, Original Wandsbeck Strain . Stoldt's Cyclamen splendens gigantea Hybrids are known all over the world. They are unsurpassed in size and delicate form of flowers, genuine colors, thickset of growth and abundant in flowering.		
To quote Mr. Stoldt: "There is an abundance of cheap, nondescript seed offered at low prices, which unscrupulous dealers do not hesitate to launch upon the American market." "A horse," he says, "can be purchased for a hundred dollars and a thousand dollars." The moral is obvious. We handle none but the Stoldt Seed and where 1000 of a kind is ordered, will send out in the original Stoldt packages, if so desired. 1000 seeds

Does the Work Right with Much Less Labor

Bolens Power Hoe Outfit No. 2 with two No. 100 Cultivator Frames, one equipped with cultivator teeth, the other with 6-inch hoes. Price \$194.40 F. O. B. Factory.

Here is a tool with the "Pep" and "Go" that will delight any man looking for quick and thorough results. It seeds, it weeds, it cultivates, it mows the lawn. It will do many times more than the man with the hoe, or hand mower. A quarter's worth of gas and oil will often do a day's work.

The BOLENS is a motorized wheel hoe, eighteen inches wide. It has a patented arched axle for straddling the plants and will work in rows twelve inches apart or wider. A wonderfully simple and effective tool control enables the operator to follow straight or crooked rows with tools set close to the plants and do the most accurate work at a uniform depth.

Whether you live in town or country,, you can make splendid use of the

BOLENS POWER HOE and Lawn Mower Tractor

The differential drive allows the tractor to be turned at the ends of rows in a small space, without dragging either wheel. The handles are offset so that the operator walks between the rows in a natural position, while the tractor works astride the row. (The BOLENS may also be used between rows twenty-four inches apart or wider).

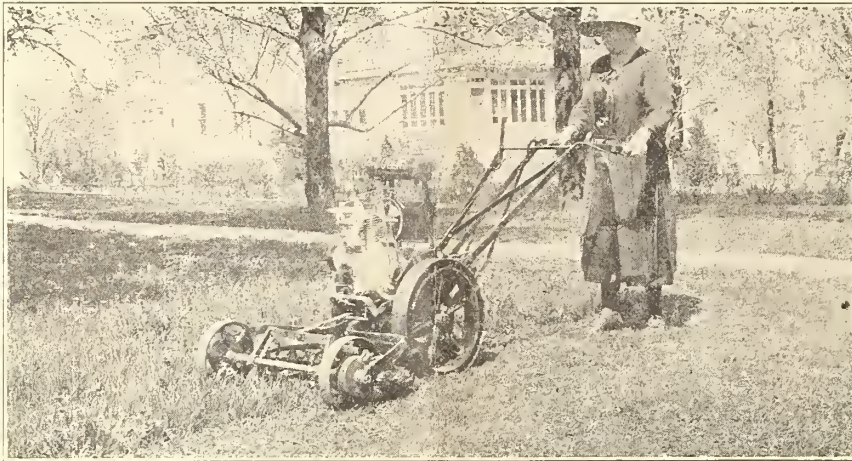

Cultivating the home garden with the BOLENS. Delightful recreation.

All BOLENS attachments are instantly interchangeable, snap hitches making it possible to quickly remove or attach seeders, any one of several cultivator frames, equipped for different kinds of work, or a lawn mower. Not even a wrench is required. The tool shank blocks are adjustable, so that you can set the tool at any desired angle.

See the BOLENS Power Hoe and tool equipment at our store, or write for complete catalog.

Cultivating String Beans
BOLENS Experimental Farms

The BOLENS is quickly convertible into a power lawn mower. The cultivator frame is unsnapped. Smooth bands are slipped over the wheels and the tongue which is attached to the lawn mower is snapped in place. The outfit is easily guided and does a clean job in all the nooks and corners like a hand mower. If you have a good cutting unit you can fit it to this attachment.

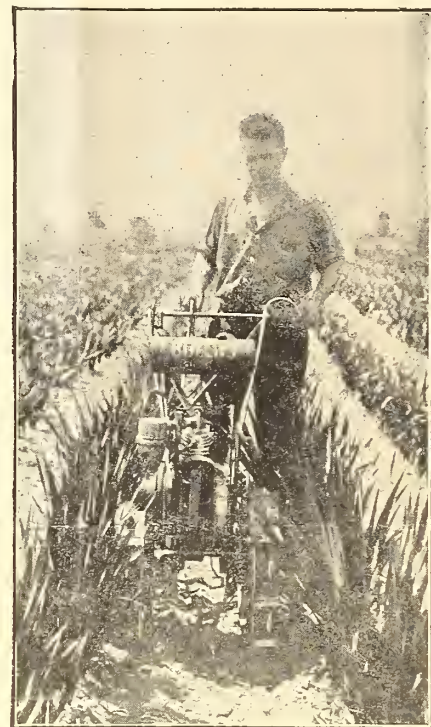

What Users' Say:—

Mr. Fritz Bahr, Florist and Nurseryman of Highland Park, Illinois—"There isn't anything we have bought of late which turned out a better investment than the BOLENS Power Hoe."

Mr. Henry Leuning, Superintendent, Shade Tree Commission, Ridgewood, New Jersey—"We wish to express our entire satisfaction with the BOLENS Power Hoe, which we are using for cutting the lawns on our village parkways and cultivating the stock at the Shade Tree Commissions Nurseries."

Mr. A. L. Tanner, Market grower, Bay Village, Ohio—"My BOLENS Power Hoe does the work of six hand cultivators. My push hoes and other implements of the past are rusting from lack of use."

Mr. Geo. F. Grewe, Onion grower, Des Plaines, Illinois, writes—"We have one of your BOLENS Power Hoes and my fourteen year old son handles it easily. It has given splendid satisfaction."

These views show a few of the many kinds of work which the BOLENS will do at a saving

CARNATIONS

NEW INTRODUCTIONS

Gold Medal Carnation WINSOME (Hartje & Elder Co.) Mrs. C. W. Ward by Enchantress Seedling. Won Gold Medal, National Flower Show, 1922; Certificate of Merit, Chicago Flower Club; Certificate of Merit, Commercial Flower Growers Association of Chicago; Certificate of Merit, Indiana State Florists Association; Certificate of Merit at St. Louis Chrysanthemum Show. First Prize, St. Louis Chrysanthemum Show, on 100 blooms and 50 blooms. First Prize, Novelty Class, Chicago Spring Flower Show, 1923. Silver Medal and First Prize on 100 blooms at New York Spring Flower Show of 1923. To be sent out January, 1924. Price, \$15.00 per 100, \$125.00 per 1000, 250 at 1000 rate. Now booking orders to be filled in rotation.

PINK MATCHLESS (James Wheeler). A sport of the well known White Matchless. Introducer's description: "Our Pink Matchless is a sport from Matchless, a stronger grower than its parent. It has heavier foliage, stronger stems and consequently is even more productive. Because of its color—a beautiful shade of deep pink—it is the best seller we have ever grown, and prompts our customers to say that it is the most popular pink in their stores. Its color intensifies under artificial light, which is another strong point in its favor."

Price, \$10.00 per 100, \$100.00 per 1000. Delivery January and later.

WINTER CHEER (Lecluse & Lecluse). A sturdy, commercial dark salmon, strong constitution, prolific bloomer, selling well and bringing top prices in the New York market.

Price, \$15.00 per 100, \$100.00 per 1000.

RADIANT (Baur & Steinkamp). A commercial scarlet, free and easy growth; its strong stem and non-splitting calyx and its uniform good color throughout the season, result in an unusual percentage of first grade blooms.

VARIEGATED ROSALIA. A beautiful sport from Rosalia. A striking and distinctive novelty.

Both varieties, \$12.00 per 100, \$100.00 per 1000.

Yellow Doty. A pure, canary-yellow double Pompon, growing about 3½ ft. high, making a beautiful spray of large flowers, blooming from Oct. 10 to Nov. 10. Also produces unusually fine flowers of a bronzed-tinted yellow when disbudded to be grown three or four on a stem. It is not advisable to grow less to a stem as the bloom will not be materially larger. Grown this way, will bloom about a week earlier than in sprays. Can be had for Thanksgiving if grown in a cool temperature. Also grows well in frames, outside (protected), or can be transplanted from the field. Lifts very well.

NEW ROSES

You have been looking for the past few years for a real commercial red Rose, one combining quality with productiveness.

SENSATION (The Jos. H. Hill Co.) is the coming Rose, without a doubt. Parentage, Premier x Hoosier Beauty. Introducer's description: As large and more prolific than Premier. Well supplied with a heavy, luxuriant foliage. The flowers are fine any season of the year. The color is an entrancing shade of red, the bud long-pointed, and the open flower beautiful, with extreme size and good color to the last. The stems are long-jointed and strong, with ample foliage. A good keeper and shipper. Grafts well, roots well, and above all else, grows well. Properly grown it will produce more dollars per square foot of space than any other Rose of today.

Prices, 40c. per plant, grafted stock; 30c. per plant, own root stock. Scions for grafting, 18c. per eye. These prices are for all quantities. We will begin dissemination not later than Feb. 1, 1924. Orders shipped in strict rotation.

SILVER COLUMBIA. Leonard's new Silver Columbia is not only the specialist's Rose, but every grower's Rose. It is a stronger grower, a larger and better flower, perfectly formed. Never a cripple bud or bull head, and a much better producer. Roots and grafts perfectly, and as easy to handle in every way as Columbia. Color, beautiful shade of silver pink.
